Education

Bachelor of Technology CSE — **8.81 CGPA** — **2023- 2027**
Specialization: Cyber Security
MIT ADT University, Pune

Senior Secondary School — **86.4%** — **2022**
Aatreya Academy, UP

Secondary School — **92.6%** — **2020**
Aatreya Academy, UP

Key Projects

- **Phishing Mail Detection System using Sandbox**
  - Developed a Chrome extension to evaluate email risk via domain reputation scoring and NLP-driven content analysis.
  - Engineered a sandbox environment to safely analyze links, capture automated screenshots, and generate local forensic reports.
- **IP Log Detection using Phishing Link with keystroke anomaly detection**
  - Developed a cybersecurity tool to detect and log IPs from phishing links using ethical hacking, threat intelligence, and network security. Then capturing there keystroke and Automated log analysis for improved threat detection.
- **Projectraa - Live**
  - Designed and deployed a responsive project management platform featuring Google OAuth, Firebase and Role Based controls for real-time team collaboration in academic.
- **Portfolio Website - Live**
  - Built a responsive, mobile-first website using JavaScript and CSS3 to highlight engineering projects.

Technical Skills

- **Programming Languages:** Python, C++, JavaScript, React
- **Coursework:** CyberSecurity, Operating Systems, DBMS, Computer Networking, Object-Oriented Programming, Software Engineering
- **Cybersecurity:** Linux, Nmap, Burpsuite, Autopsy, FTKImager
- **Databases:** MySQL, MongoDB
- **Other Skills:** Git, REST APIs

Certifications

- Cybersecurity Fundamentals By IBM
- EC- Council NDE(Network defense Essentials)
- Career Essentials in Generative AI – Microsoft & LinkedIn (AI, Machine Learning, Data Analysis, Software Development)

Internships

- Palo Alto Virtual Internship in Cybersecurity via AICTE
- Cisco Virtual Internship In Networking via AICTE
